

EMPLOYMENT OPPORTUNITY

As Canada's leading full-service Out-of-home advertising company, OUTFRONT Media Canada has strong coverage across Canada including all of Canada's top 10 markets and in an additional 60+ communities from coast to coast.

We are currently seeking energetic and reliable team players to join our OTS team in Toronto as Test and Environments Manager

In this role, YOU will be responsible for:

- Driving and coordinating the deployment of software and hardware changes whilst ensuring the consistency and availability of environments to support the existing project portfolio
- Cultivating strong, collaborative working relationships with the wider IT and business functions as well as 3rd parties, ensuring that deliverables are aligned to overriding requirements and expectations
- Managing the day to day of the IT Test and Environment function/team incorporating effective coaching, mentoring and development opportunities
- Ownership of core policies, processes and standards including the development and maintenance of appropriate controls in order to identify and mitigate internal issues and/or risks
- Controlling testing environments and configuration management, Continuous Integration tools and industry best practices, liaising with Development, QA, Production, and Business users
- Working autonomously and work in an undefined environment and be self-sufficient in delivery
- Interpreting business requirements and relay to the technical streams for solutioning
- Outsourcing Testing functions where required and providing managerial oversight to ensure efficiency and effectiveness is achieved in a controlled measured manner
- Possessing a wealth of experience in Environment Management, ideally leading through periods of large-scale transformation
- Having an excellent grasp of testing strategy and risk management/quality assurance approaches, especially relating to the introduction of new modules, changes, fixes and upgrades
- Having a wealth of experience in both automated and manual testing techniques and well as Functional and Non-Functional testing experience.
- A solid working knowledge of Windows and SQL desirable and be fully up to date on the latest testing methodologies, tools, standards and industry best practices

YOU possess

- Strong negotiation and influencing skills, Excellent leadership and interpersonal skills
- Sound business case development and approval skills
- Team player who will work effectively and pro-actively with internal and external stakeholders with the ability integrate with all areas of the business
- Proven working knowledge of techniques for planning, monitoring and controlling testing programs
- Effective problem resolution
- Proven coaching/mentoring skills and Agile testing patterns
- ITIL certification. Foundation as a minimum
- Solid JIRA/Confluence experience/ MS Azure knowledge and Continuous Integration experience
- SDLC experience within an Agile Environment
